

XSPACE – could your Trust benefit from additional training rooms?

What is XSPACE?

XSPACE is a unique mobile classroom designed for NHS Trusts that require onsite training facilities for their CRS rollouts and staff training projects.

XSPACE mobile classrooms provide a dedicated, comfortable and secure training environment, proving particularly popular and useful with recent [RiO](#) and [Cerner](#) training roll-outs.

What can XSPACE be used for?

As well as a cost effective, temporary training facility, the XSPACES can be used as:

- project offices
- interview rooms
- command centres to co-ordinate floor-walking
- IT facilities for software testing and piloting
- general office space

What can XSPACE provide for my Trust?

- a **consistent** and **quality** training environment
- **zero** staff travel and subsistence costs
- **minimal** disruption to working hours
- **increased** staff attendance due to convenience

What does XSPACE include?

- fully networked high specification PCs and server
- direct connection to N3 Spine, Trust IT networks and power supplies
- built-in acoustic dividers
- full disability access compliance
- ergonomic seating and design throughout
- climate control
- dual interactive smart boards & projectors
- wall mounted flipcharts
- high level security features including alarms and steel window shutters
- lockable storage
- option of powering by generator in remote sites

Feature: XSPACE Stack – more classrooms, same space

We are able to offer stacked XSPACE mobile classrooms. This means your Trust can now benefit from more training space while occupying the same square footage as a single XSPACE.

The XSPACE Stack is an excellent way to provide a comfortable, efficient and spacious training facility for all your training and office requirements.

Our XSPACE Stacks are currently being deployed at St George’s Hospital in Tooting, South London.
