

## The training your staff need - at the touch of a button

e-Learning is changing the way the NHS approaches the training and development of its employees. It enables any NHS Trust to create, deploy and distribute organisational learning to staff, quickly and easily.

### What can we do for your Trust?

Premier IT can design, develop and deliver a customised e-Learning solution, tailored to meet the specific needs of your Trust. We specialise in:

- **Induction e-Learning**
- **Statutory & Mandatory e-Learning**
- **Systems e-Learning - including Cerner and RiO**

Our ever-expanding portfolio of compliance e-Learning modules can form part of the process of staff Inductions, enabling you to meet all requirements of the Clinical Negligence Scheme for Trusts (CNST).

### What e-Learning can we offer?

Some of our most popular solutions include:

- Junior Doctors Induction
- Infection Control
- Safeguarding Children
- Cerner and RiO
- Mandatory Training Programme

### Repurposing your existing learning materials

If you currently have learning materials in use, but they are out of date or not in a suitable electronic format, we can help. Our e-Learning development experts will take all your existing content and repurpose it using instructional design techniques and interactive functionality. You will then be able to upload your content to any Learning Management System (LMS), including the National Learning Management System (NLMS).

This means that you will not have to worry about meeting the requirements of your Litigation Authority, as the existing content will remain unchanged.

The design techniques we use will also allow us to fully customise the look and feel of the e-Learning system and content, and align it to reflect your Trust's branding and colour schemes.

### Accessibility and SCORM compliance

All of our e-Learning is SCORM 1.2 compliant, meaning all content is fully compatible with, and can be uploaded to, the National Learning Management System (NLMS).

We can also make your e-Learning accessible to staff via:

- your own LMS or Intranet
- the Internet
- duplicating onto CD/DVD format

### Our NHS e-Learning module titles include:

- Blood Sampling
- Blood Transfusions
- Consent
- Cultural Policy
- Deaths
- Documentation
- ECG
- Equality and Diversity
- Equipment
- Fire Safety
- Hazardous Substances
- Health and Safety
- Incident Reporting
- Infection Control
- Junior Doctors Induction
- Major Incidents
- Manual Lifting and Handling
- Prescribing
- Risk Management and Assessment
- Safeguarding Children
- Safeguarding Vulnerable Adults
- Slips, Trips and Falls

See overleaf for further information

If you do not have an LMS, we can provide you with one. Premier IT's LMS will enable you to deploy, manage, track and report on the e-Learning in use at your Trust. It will even let you print, save and email certificates, or upload them to a learner's e-Portfolio.

## Accessible e-Learning anytime and anywhere

### Why Premier IT?

Premier IT is the only dedicated provider of tried and tested e-Learning solutions approved by Connecting for Health. We provide e-Learning solutions to many Trusts within the NHS. Some of our clients include:

- Guy's and St Thomas' NHS Foundation Trust
- Kingston Hospital NHS Trust
- Brighton and Sussex University Hospitals NHS Trust

All of our NHS e-Learning projects are managed using the PRINCE2® methodology. Our project managers and e-Learning developers are fully qualified PRINCE2 practitioners.

Our certified health trainers work in tandem with our skilled e-Learning content developers, to ensure the relevance and usability of your Trust's e-Learning solution.

Allowing us to take care of the systems administration will enable your subject matter experts to focus exclusively on content.

### What do our clients say?

*"Premier IT's e-Learning provides us with a simple, yet effective, solution to our mandatory and compliance training requirements, enabling us to ensure that all new employees are sufficiently trained before they commence their employment. As a company Premier IT is professional, forward-thinking and attentive to our requirements."*

Andy Willis  
MMC Coordinator  
Guy's and St Thomas'  
NHS Foundation Trust

*"The introduction of e-Learning has been invaluable to our Junior Doctors Induction programme, simplifying the administration process and enabling us to induct new Doctors before they even commence their employment. The team at Premier IT has been professional and supportive throughout the entire process and I would recommend their services to any other Trust."*

Maggie Lydon  
Medical and Dental Education Manager  
Kingston Hospital NHS Trust

*"The e-Learning modules are professional and the LMS system has been invaluable over the last month, providing us with on the day/hourly results of the mandatory questionnaires and Induction training our new starters needed to complete. Premier IT has been brilliant throughout the setting up process and very attentive; always happy to help and provide advice."*

Sarah Wotton  
Medical Education Centre Secretary  
Brighton and Sussex University  
Hospitals NHS Trust

### Want to know more...

Our extensive range of NHS e-Learning services are currently being deployed and used at many NHS Trusts across the UK.
